DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Parisi (3590829).

With regard to claims 1-6, 8-11, Parisi discloses a hair device (fig. 1) comprising a rectangular panel (10) having a first side (18), a second side and a peripheral four edges extending between the first and second sides, a plurality of apertures (20) extending through the first and second sides of the panel, wherein hair may be selectively positioned around the panel; the plurality of apertures having a pair of outer rows and a middle row (portion 18), the apertures being positioned along perpendicular lines with respect to the first and second edges and the outer rows being aligned along parallel lines with respect to the first and second edges (fig. 1), also the apertures in the middle row (at 18) being non-aligned with the parallel lines of the outer rows apertures. The device further having a resilient elastic band (26) being positionable around the panel and the first edge having a pair of arcuate slots (34) extending therein for selectively receiving the elastic band.

Art Unit: 3732

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 13 is allowable over prior art of record.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Muenstermann, Rosenheim and Gebhart are cited to show the state of the art with respect to a hair curler.

The drawings filed 11/21/2003 have been approved by the Examiner.
